## The Approach

### What was the scope of their involvement?

Brain Technosys has been helping us with custom software development. The team has taken over a project from another developer who was unable to finish it. Brain Technosys has taken the documentation to create their own and finish the project. We've crafted a plan together. Brain Technosys has been using Angular, .NET Core, Azure DevOps, and LOB storage.

### What is the team composition?

We work with a .NET developer, an Angular developer, an Azure DevOps developer, and a C# developer.

### How did you come to work with Brain Technosys Pvt. Ltd.?

I found Brain Technosys on Google. I interviewed them, and they had the talent we needed in Angular and .NET Core.

### How much have you invested with them?

We've spent over \$100,000.

### What is the status of this engagement?

We started working together in September 2024, and the engagement is ongoing.

## The Outcome

### What evidence can you share that demonstrates the impact of the engagement?

Brain Technosys has provided 150,000 lines of custom code. The quality of their work has met our expectations.

### How did Brain Technosys Pvt. Ltd. perform from a project management standpoint?

Brain Technosys communicates well with me using Azure DevOps and Microsoft Teams.

## What did you find most impressive about them?

I'm impressed by their expertise and execution. Brain Technosys doesn't shy away from problems and sees things through until the end. They're mature and good people. The team has the skills and training they say they have.

## Are there any areas they could improve?

I can't think of anything they can improve. It would be nice to say I wish they never made mistakes, but that's not how the business works. Brain Technosys shows proficiency and works through problems, which is what I expect from a company.

## Do you have any advice for potential customers?

No, I don't have any.
